Insula's modular, solar-powered containers support irrigation, cold storage, and equipment charging--built for efficiency and sustainability.

The mobile solar container is designed to work seamlessly with lithium battery storage containers, allowing for efficient energy storage and use. This compatibility makes storing solar power easier when sunlight is ...

SolaraBox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

This study explores the design and adaptation of a shipping container into a portable irrigation control station for agricultural operations. The project leverages the structural durability...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

The H10GP-M-30K40 delivers 30kW of solar generation and 40kWh of storage, housed in a 10ft mobile foldable container. Using high-efficiency 480W panels, it's engineered for mid-size off ...

Designed for off-grid farms, mobile laboratories, and small construction sites. The 10ft format with 40kWh storage offers stable green energy for medium-duty tools, lighting, and refrigeration in remote agricultural or ...

Topband's innovative mobile energy storage solutions for agricultural irrigation and small commercial applications. Explore scalable Smart Mobile ESS matrices, renewable integration, and all-terrain deployment ...
