---

Ideal for microgrids, rural and remote areas, large-scale manufacturing, farms, and EV charging stations, the FlexiO series is a highly integrated battery energy storage system (BESS) engineered to optimize ...

Integrated Container Energy Storage has emerged as the definitive solution, offering high capacity, high integration, and rapid deployment. As an innovator in power technology, Chennuo ...

A flexible mid-node battery energy storage system (BESS) with rapid deployment and remote monitoring - Our 500 kW/250 kWh battery solutions are backed by engineering expertise to help reduce ...

Start with expert collaboration. Our team has been delivering successful onsite energy solutions for over 65 years. Let's work together to build a BESS that meets your unique needs.

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy expansion and ...

The FlexiO series is a highly integrated battery energy storage system (BESS) designed to optimize performance and reduce costs for stationary commercial and industrial energy storage applications.

With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all-in-one container design simplifies deployment, reduces installation time, ...

It is a large multi-function smart energy storage station. Comprehensive and multi-level battery protection strategies and troubleshooting measures are in place. Various units can be easily ...

The P500 optimizes diesel generator operation by storing excess energy when the load demand is low and releasing stored energy when peak power is needed. This minimizes generator runtime, reduces ...

## 500kWh Smart Energy Storage Unit along the Belt and Road

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.
