OpenCelliD is the largest Open Database of Cell Towers & their locations. You can geolocate IoT & Mobile devices without GPS, explore Mobile Operator coverage and more!

To find the nearest cellular tower, the coverage map at the top of this page on Planhub is your best option, as it consolidates all Canadian mobile provider networks.

The Canadian Cell Tower Map allows users to quickly browse through tens of thousands of towers. This map is useful in planning and troubleshooting cellular networks for IIoT / SCADA monitoring ...

List of Canadian telephone companies This is a list of telephone companies in Canada.

CellMapper is a crowd-sourced cellular tower and coverage mapping service.

This is a list of mobile network operators, which includes national and regional service providers. Where applicable, this list will also include any subsidiary "extension" brands associated with a mobile service provider. While primary brands, such as Rogers Wireless or Bell Mobility, account for roughly 82% of wireless revenue, extension brands allow wireless service providers to differentiate service offerings and reach broader market segments.

Interactive map showing Canadian Wireless telephone providers cell tower locations. Includes Bell, Rogers, Telus and many others.

The Canadian Cellular Towers Map presents the locations of tower sites for each licensed wireless provider. Each site is indicated by a colour coded icon positioned on the map.

For over 25 years, Canadian Base Operators has provided customized facilities management and logistical support services to clients in the Canadian Defence, aviation, and energy sectors.

Canadian telecom operator base station

Facilities-based operators other than ILECs and cable-based operators gained market share while wholesale-based operators lost revenue share to larger operators.
