Who is solar power Canberra?

At Solar Power Canberra, we provide professional and expert solar power services to Canberra residents. We offer a range of products and services, including Solar Power System design, installation and repair for both residential and commercial clients alike.

How do you use solar power in Canberra?

One common way to use solar power in Canberra is through Solar Panels which convert sunlight into direct current (DC) electrical energy using semiconducting materials such as silicon. This DC energy can then be converted into alternating current (AC) with an inverter which makes it usable in your home.
