EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and experience to get your next project designed and delivered.

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS).

This product is designed as the movable container, with its own energy storage system, compatible with photovoltaic and utility power, widely applicable to temporary power use, island application, ...

The Dominican Republic's national energy commission (CNE) has signed a definitive concession for the project called Photovoltaic Installation Santa Clara Energy Group, which aims to install 67.7 MW/84 ...

Ideal for retail stores, restaurants, small factories, telecom base stations, and temporary event sites, these cabinets combine rugged protection (IP54), integrated inverters, and scalable rack-mounted ...

From the beginning in the last months of 2020, we have been in charge of the development and start-up of the park with a contracted power of 50MW that will inject more than 130 million Kwh ...

The LZY solar battery storage cabinet is a tailor-made energy storage device for storing electricity generated through solar systems. They assure perfect energy management to continue power ...

Discover how battery storage systems are transforming energy security and renewable adoption in the Dominican Republic. Learn about market trends, success stories, and actionable insights for ...

GGGI will support the development of an alternative model to solar PV expansion, consisting in smaller solar PV system (10-25MW) that will be connected to the 69kV network, with solar farms closer to the ...

Dominican Republic Photovoltaic IP54 Battery Cabinet Power Distribution

The Dominican Republic's national power commission (CNE) on Tuesday signed conclusive concessions with a sponsor that seeks to construct 2 solar photovoltaic or pv (PV) farms with an ...
