Consistent with standard statistical practice, the U.S. Energy Information Administration (EIA) has selected and tested a new sample for the Weekly Natural Gas Storage Report (WNGSR).

Comparing the WNGSR series (Form EIA-912) with monthly working gas inventories reported in the Natural Gas Monthly (Form EIA-191) provides an additional benchmark to evaluate the performance ...

The stock price data was downloaded from Yahoo Finance and the price series for crude oil and kerosene were obtained from the U.S. Energy Information Administration (EIA).

Applications of extreme value theory can be found in other task views: for financial and actuarial analysis in the Finance task view, for environmental analysis in the Environmetrics task view. General ...

Stay updated on natural gas futures as winter demand narrows. Get the latest on March futures, heating demand, and EIA storage report projections. Learn more about the market trends ...

Weekly Natural Gas Storage Report Schedule Holiday Release Schedule The standard release time and day of the week will be at 10:30 a.m. eastern time on Thursdays with the following ...

The Comprehensive R Archive Network (CRAN) provides access to resources, packages, and documentation for the R programming language.

The Energy Information Administration (EIA) Natural Gas Storage report measures the change in the number of cubic feet of natural gas held in underground storage during the past week.

The EIA reported a record weekly withdrawal from U.S. storage, totaling 360 billion cubic feet. Gas-linked UNG climbed, with traders shifting focus to weather forecasts and the storage report ...

The "EIA" API provides a variety of information, in a time series format, about the energy sector in the US.

Eia natural gas storage

The API is open, free, and requires an access key and registration at ...

EIA's free and open data available as API, Excel add-in, bulk files, and widgets

The "EIA" API provides a variety of information, in a time series format, about the energy sector in the US. The API is open, free, and requires an access key and registration at < ...

An array of natural gas storage data is available, including "official" inventories as reported by the EIA, daily projections and estimated intraday current inventories, near-term weekly projections, and long ...

By default the key argument for these functions is `key = eia_get_key()`. If your key has been stored in a manner that can be retrieved, then you can call all the package API functions without having to ...

EIA draws a sample for the EIA-912 from the census of storage operators that report on Form EIA-191, Monthly Underground Natural Gas Storage Report, to prepare weekly estimates of ...

Key storage and retrieval While the key argument can be provided to every API function call, it is not necessary. There are "get" and "set" helpers available to make using eia functions a more seamless ...
