Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

Meet Tallinn Energy Storage Lithium Battery Company--the silent powerhouse behind Europe's green transition. Did you know their batteries can outlast an Estonian winter (-20°C, ...

Summary: Tartu, Estonia, is rapidly adopting lithium battery energy storage systems to support renewable energy integration and grid stability. This article explores the applications, market trends, ...

The project, spearheaded by the Baltic Storage Platform--a joint venture between Estonian energy company Evecon, French solar producer Corsica Sole, and sustainable finance ...

Eesti Energia is to build an energy storage device with a capacity of up to 53.1MWh at the Auvere industrial complex in Estonia later this year, the company has confirmed.

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates.

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

State-owned utility and power generator Eesti Energia has completed and put into commercial operation the first large-scale BESS in Estonia.
