How do I install a battery cabinet?

Create an installation plan for the battery cabinet (Chapter 2). Prepare your site for the battery cabinet (Chapter 2). Inspect and unpack the battery cabinet (Chapter 2). Unload and install the battery cabinet, and wire the system (Chapter 3). Complete the Installation Checklist (Chapter 3).

How do you secure a battery cabinet?

Secure the battery cabinet position by lowering the leveling feet until cabinet is not resting on the casters. Ensure the cabinet is level and matches the height of the installed UPS cabinet. NOTE Two cabinet joining brackets are provided in the field kit for securing each cabinet at the top and bottom.

How to install a battery?

Battery installation can be efficient and safe by following the proper steps. Here is what you need to prepare before installing the battery. Check the voltage and capacity, select the appropriate battery type, and check the manufacturer's instructions, as each type of battery has different installation guidelines.

How do I connect a ups to a battery cabinet?

Attach a signal cable (not provided) to the male adapter connector in the correct length to reach from the battery cabinet to the UPS. As an alternative, you can also crimp the signal cable extensions. Ensure that the crimp point is inside the battery cabinet, not in conduits or cable trays outside the battery cabinet.
