Huawei has stepped up its ambitions in advanced energy storage with a patent for a sulfide-based solid-state battery that offers driving ranges of up to 3,000 kilometres and ultra-fast charging in just five minutes.

Huawei is the latest in a growing list of automakers and tech companies that are exploring the possible benefits of fitting an EV with solid-state batteries, with the likes of BMW, Mercedes-Benz,...

South Tarawa container energy storage vehicle manufacturer Does South Tarawa need solar power?Constrained renewable energy development and lack of private sector participation. While grid-connected solar power is ...

AI flash charging with full-stack high voltage design to enhance driving experience. X-in-1, hyper-converged architecture for ultra-fast charging. A seamlessly integrated solution that combines a range extender and ...

SINGAPORE, 6 February 2026 - Huawei and SP Mobility have launched Singapore's first ultra-fast electric vehicle (EV) charging enabled with battery energy storage system (BESS), at Temasek Polytechnic. ...

Huawei and SP Mobility launched Singapore's first ultra-fast electric vehicle (EV) charger integrated with a battery energy storage system (BESS).

Huawei has filed a patent detailing a sulfide-based solid-state battery design with energy densities between 180 and 225 Wh/lb, roughly two to three times higher than today's typical electric...

Huawei has intensified its ambitions in advanced energy storage by patenting a sulfide-based solid-state battery capable of achieving driving ranges of up to 3,000 kilometres and ultra-fast ...
