In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Our certified solar specialists provide comprehensive monitoring and technical support for all installed photovoltaic power plants and solar container systems.

As Latvia accelerates its shift toward clean energy, Liepaja emerges as a strategic hub for innovative Battery Energy Storage Systems (BESS) and photovoltaic technologies.

Latvia's largest single-site solar plant begins operating The 120.8 MW project, built by Lithuanian renewables developer Green Genius, is the largest single-site project in the Baltics.

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

In Latvia, the installed solar photovoltaic (PV) capacity in single-family homes significantly increased in 2022 and 2024. This growth was largely driven by the availability of ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of 20+ ...

Latvenergo, Latvia's leading energy company, plans to install 250 megawatts (MW) of energy storage capacity by 2030. This ambitious target is part of a broader strategy to ...

Latvia's path to energy transition: Expanding renewable energy In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, ...

What is HJ mobile solar container?The HJ Mobile Solar Container comprises a wide range of portable

Latvia s last photovoltaic container

containerized solar power systems with highly efficient folding solar modules, advanced lithium ...
