EverExceed VRLA battery cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications.

Cloud platforms are rolling out multi-region footprints inside the Gulf to satisfy data-sovereignty rules, and every new availability zone translates into thousands of high-density, enclosed ...

Huawei SmartLi UPS is a Li-ion battery power system designed for data centers, slashing the physical footprint by 70% compared to traditional lead acid batteries for the same power and same backup ...

The cabinets are equipped with Vertiv's intuitive interactive touch screen HMI display to provide visibility and control of the cabinet, operating system, and the installed batteries.

The rising demand for cloud computing, AI-driven applications, and enterprise data storage is accelerating the need for new data centres across the Middle East.

From powering telecom towers to deploying fully integrated data center environments and intelligent cooling systems, we engineer the future of critical infrastructure.

GVSCBC10A2 - Classic Battery Cabinet, IEC, 1000mm wide, Config A2, Galaxy VS/VL and Easy UPS 3-Phase Modular.

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they ...

A Middle East and Africa Lithium Battery Charging Cabinet is a specialized enclosure designed to safely store, manage, and charge multiple lithium-ion batteries simultaneously.

Middle East Data Center Vertical Battery Cabinet

In March 2025, GSL ENERGY successfully installed four 120kWh high-voltage rack battery energy storage systems in the Middle East, a total of 480kWh of energy storage capacity. ...
