Those are some of the options that solar energy nonprofits and states are weighing after the Trump administration moved last week to terminate the Biden-era \$7 billion Solar for All program.

The U.S. canceled \$13 billion in clean energy subsidies as of September 2025. Large-scale projects like wind, solar, EV infrastructure, and batteries are most affected.

WASHINGTON (AP) -- The Environmental Protection Agency on Thursday terminated a \$7 billion grant program that was intended to help pay for residential solar projects for more than ...

More than 20 states sued the EPA on Thursday, challenging its cancelation of a \$7 billion program that aimed to make solar power accessible to low-income households.

The U.S. Environmental Protection Agency announced plans to rescind \$7 billion in grants for bringing solar power to low-income communities.

Sept 24 (Reuters) - The U.S. Department of Energy intends to cancel more than \$13 billion in funds that the Biden administration had pledged to subsidize wind, solar, batteries and electric...

The Environmental Protection Agency has terminated \$7 billion in funding for solar programs approved under the Biden administration, including projects for nearly 1 million households in low-income ...

Solar for All funded efforts around the country to provide rooftop solar panels, community solar farms, and battery storage. Now, the fate of the program is in question, the Trump...

The Trump administration is preparing to terminate \$7 billion in federal grants intended to help low- and moderate-income families install solar panels on their homes, according to two people...

National subsidies for solar power generation cancelled

Congressional Republicans passed the One Big, Beautiful Bill, which put the brakes on federal clean energy subsidies by terminating investment and production tax credits for wind and solar...
