What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Who makes a telecom enclosure?

Bison manufactures telecom enclosures at a competitive unit cost & rapid turnaround that are used in protecting electrical equipment. Request a quote today!

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?

Where can I find a proposal/bid due date for a DGS solicitation?

Beginning in March 2016, all solicitations with a proposal/bid due date that have passed will be posted on the DGS Solicitation Archive page. Contract award data for all solicitations is available on the Contract Award page. Starting July 1, 2024, all new solicitations will be available on OpenGov.
