It is used for combining the solar module frame. It is easy to adjust the specification and dimensions, and there is a wide adjustment range, from 800x800mm to 2500x1500mm; you can adjust casually. It is ...

Manufacturer of standard and custom automatic orbital riveting machinery. Products include automatic dial-feed systems, compact and high capacity benchtop machines, compression devices, double ...

As a professional rivet manufacturer, Rivmate has rich experience in solar panel application. And we can provide solar panel fasteners one-stop purchasing service to solve all your purchasing needs at once.

These systems enhance speed, precision, and efficiency compared to manual riveting, enabling continuous, high-quality production. Area where components to be assembled are positioned ...

Our portfolio includes not only automatic solar panel production lines, but also ...

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and ...

HBQ-G203 integrated photovoltaic wire cutting, riveting and screwing machine is an automatic processing machine for photovoltaic wire cutting, riveting and screwing. Its functions include cutting ...

Our company provides a turnkey solution for a fully packaged production line and equipment for solar module manufacturers.

Custom Riveting Solutions For Your Solar Project Now! Blind Rivets for Solar Mounting & PV Structure Applications Designed for aluminum profiles, steel purlins and solar tracker structures.

Whether you're in aerospace, automotive, or industrial equipment, our automated riveting systems deliver

Photovoltaic panel automatic riveting equipment manufacturer

unmatched precision and performance. Operate 24/7 with consistent cycle times. Robotic ...

Stryver riveting machines are designed to take operator guesswork and inaccuracy out of the riveting process. With a fully automated riveting process, you can be assured your rivets will be placed in the ...
