The project aims to enhance grid reliability, expand clean energy access and support Senegal's sustainable energy transition. Construction on the project began in May 2025, with ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

State utility Senelec SA, in partnership with Africa REN, is adding 10 megawatts of battery storage that's capable of holding up to 20 megawatt-hours of electricity to an existing 16-megawatt ...

The Walo Storage facility, commissioned on July 14th, represents West Africa's first solar power plant integrated with battery storage specifically for grid frequency regulation.

Independent power producer, Africa REN, has commissioned a 20MW of solar PV power plant with a 10MW/20MWh battery energy storage system (BESS) in Senegal. Named the Walo Storage project, ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

Aug 8, Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa,

The system will enable Senelec to stabilise the nation's electricity grid and pave the way for further renewable energy growth in Senegal. The project will be operated by Infinity Power's Parc ...
