How many circuit breakers do you supply to Russia?

Over the years we supplied about 1.500 circuit breakers for voltage 110,220 and 500 kV to the Russian market.

What are Russian molded case circuit breakers?

Russian Molded Case Circuit Breakers (MCCBs) are designed for medium-capacity circuits in industrial and commercial power systems. These breakers offer adjustable trip settings and are available in 3-pole and 4-pole configurations, making them ideal for complex electrical installations.

What are Russian circuit breakers made of?

Russian circuit breakers commonly use high-purity copper or silver-copper alloys to maximize electrical conductivity and minimize resistive heating. In premium models--particularly air circuit breakers and high-capacity molded case breakers--contacts are often silver-plated.

What is a circuit breaker?

A circuit breaker is a critical safety device in electrical systems, designed to protect circuits from damage caused by overloads, short circuits, or ground faults. In Russia and across the CIS region, various types of circuit breakers are used in residential, commercial, and industrial applications.
