Which solar attic fan is best?

Powerful 14" attic fan with thermostat control. The iLiving ventilation exhaust fans are the No.1 selling fan on Amazon. This smart solar attic fan is your best choice for cooling off your home while helping you to save big on your cooling bills. Equipped with a powerful 40W adjustable Polycrystalline solar panel, this fan is IP68 waterproof.

What is a solar attic fan?

This also goes a long way in regulating the overall temperature of the building. As such, a solar attic fan is the same type of fan. The only difference is that it is powered by solar energy. Some of them even come with thermostats. As such, they can start expelling hot air from the attic as soon as a specific temperature is reached.

How much does a solar attic fan cost?

This can translate to up to 30%-40% cooling cost savings in hot climates, while also extending your roof's lifespan and preventing issues like mold and ice dams. Costs & ROI: Quality solar attic fan units cost around \$300-\$600, plus ~\$100-\$300 for professional installation (if you don't DIY). Typical installed cost is ~\$600-\$800.
