We offer solar panels, wind turbines, and hybrid systems for every customer type. Together, we build a greener future.

With the delivery of 10,000 solar panels, the first phase of Suriname's photovoltaic project is now complete, thanks to a \$50 million grant from the United Arab Emirates (UAE). The project, which will ...

The district of Coronie in Suriname enhances its energy supply with a new solar plant, set to provide power to 9% of households. Inaugurated on Saturday, July 30, 2022, this solar energy facility is ...

The launch of this landmark facility represents a new stage for Suriname in clean energy development and advances low carbon mining practices across South America.

In a landmark move for its renewable energy ambitions, Suriname has officially commissioned its first large-scale centralized solar facility in 2025.

Solarvance is ready to provide tailored solar power solutions to meet Suriname's growing energy needs. Contact us today to explore how solar energy can power your home, business, or rural community while reducing ...

PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country. The construction of three ...

Construction of three hybrid solar power plants in Suriname is underway to supply 25 villages with electricity. The plants, located in Daume, Cajana, and Galibi, will combine solar panels, battery storage, and ...

Renewable energy in Suriname, especially decentralized solar PV and hybrid systems, improves energy resilience by reducing reliance on imported fossil fuels and fossil fuel price shocks.

Suriname New Energy Solar Panels

energy demands. Suriname, as a member of the Caribbean Community (CARICOM) has a target of renewable electricity generation to be reached by 2017, 2022 and 2027 respectively emphasising the countries ...
