Can Australia help secure Tonga's outer island energy needs?

Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group.

How many people have access to electricity in Tonga?

This means that little more than 30,000 people are spread across 35 islands, presenting acute issues in terms of the provision of modern infrastructure. At OIREP commencement, the ADB estimated that 89% of all households across Tonga had access to electricity.

How much does electricity cost in Tonga?

According to UK-based aggregate website Cable, Tonga's electricity is the 13th most expensive in the world, at an average cost of USD 0.35 per kilowatt hour (kWh).

Why did OIREP work with Tonga Power Limited?

OIREP's on-grid work was always a matter of laying the foundations for further investment in renewables and enjoyed the ease of working through one implementing partner - Tonga Power Limited - who were incentivised to help ensure the program succeeded given they will manage all on-grid assets post-project.

This collaboration seeks to address key challenges within the existing energy management system (EMS) and micro-grid systems (MGS), ensuring the efficient integration of renewable energy sources ...

The energy storage outdoor cabinet adopts an integrated design solution This 100KW 215KWH C& I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection ...

SIT - Solar Island Technology are promoting and implementing Solar Energy Solutions in Tonga and neighbouring Islands for a more sustainable and affordable future.

The Importance of Smart Grid Integration Tonga Tonga's geography, comprised of numerous islands with
