UniEnergy Technologies (UET) was a U.S. vanadium redox flow battery manufacturer in Mukilteo, Washington, which manufactured megawatt-scale energy storage systems for utility, commercial and industrial customers. The company was founded in 2012 by Dr. Gary Yang and Dr. Liyu Li to commercialize a new Vanadium electrolyte formulation the pair had developed while working at Pacific Northwest National Laboratory

Mukilteo, Washington-headquartered UniEnergy Technologies (UET) and Snohomish County Public Utility District (SnoPUD) held a ceremony to launch its latest 2MW / 8MWh advanced ...

1MW/4MWh Uni.System, the largest capacity containerized flow battery in the world, grid-connected supporting distribution circuit and also customer-side islanding, black start, and seamless switching ...

In 2015, UET deployed the largest containerized flow battery now in operation in the world, as verified by the US Department of Energy Office of Electricity Global Energy Storage Database.

The large capacity can be used for load balancing on grids and for storing energy from intermittent sources such as wind and photovoltaics. The UET flow battery is the size of a shipping container and ...

In Nov 2017, this lithium battery with state-of-the-art fire protection technology failed during commissioning, resulting in release of toxic fumes, closing freeways and evacuating citizens

UET is a redox flow battery (RFB) manufacturer headquartered in Mukilteo, Washington. Their redox flow battery technology is based on a new, third generation, patented electrolyte ...

UET picked up a license, perfected the manufacturing process, found financial partners and started to commercialize the system. As a flow battery, the UniEnergy battery separates power ...

UET produces integrated advanced vanadium flow battery storage solutions for savings, stability, and security

Uet flow battery

in utility, independent power producer, microgrid, and commercial and industrial...

UniEnergy Technologies (UET) manufactures modular Vanadium Flow Batteries for safe and high-performance bulk electricity storage applications. UET's Reflex(TM) product leverages a patented and ...
