Imagine watching 3,500 solar panels being installed on a football field-sized rooftop in real-time - complete with drone shots of workers dancing the "safety shuffle" between modules.

Huasun will supply high-efficiency solar modules based on HJT technology for the project, while SunSum Technology, as a specialist in tower-type CSP, will provide a one-stop ...

But here's the kicker: 65% of potential solar adopters delay installations due to unfamiliarity with the process. Well, that's where live construction broadcasts come in - they're sort of like having a front ...
